

WEATHERING THE STORM

In the Workplace

Developing an emergency plan in preparation for severe weather is crucial to ensuring your safety in the workplace.

BEFORE THE STORM:

- Create an action plan
- Participate in regular storm preparation drills
- Be aware of your sheltering location
- Know where first-aid kits and fire extinguishers are located

DURING THE STORM:

- Remain calm
- Avoid windows and external walls
- Move quickly to your sheltering location

AFTER THE STORM:

- Check forecast updates
- Avoid storm damage/hazards
- Move to a safe location

*Protocol may vary depending on Location

In the event of severe weather, our sheltering location is:
